

Overview

DrawCut LITE can control the cutting plotters of the Secabo CIII, CIV and S series. DrawCut LITE has extensive functions for designing, drawing, arranging objects and creating texts. In addition, DrawCut LITE installs, calibrates and controls your Secabo cutting plotter comfortably and with many clear wizards and simple functions. After the order process you will receive a code with your invoice which you can use to download your DrawCut LITE from <http://buy.draw-cut.com/?edition=1>. Payment is made by "voucher" with the code that you will find on your invoice. You will then receive your DrawCut LITE serial number by email, which you can use to download and install DrawCut LITE from www.draw-cut.com. Software products are generally excluded from being returned.
