Overview

High cutting quality and precision make the Secabo C120 V vinyl cutter a reliable universal partner. With its stepper motor, all common materials in advertising technology can be processed. The cutting plotter is designed for a maximum cutting width of 126 cm and a maximum media width of 135 cm. The model has a completely new, convenient menu and user interface and a unique design. It uses the successful LAPOS contour cutting function and the DrawCut PRO cutting software for Windows supplied. A sturdy stand with roller holder is also included in the scope of delivery.

Features

Easy menu navigation

comfortable control panel with illuminated LCD-display and large buttons

Mac compatible

This product is also available as a mac compatible version with the SignCut software (without LAPOS).

64bit enabled

The device can be controlled by 64bit operating systems.

Plug and play

simple installation, no additional drivers necessary

Improved LAPOS

The improved LAPOS facilitates faster reading of crop marks for a productive contour cut.

DrawCut LITE

DrawCut LITE supplied – with controls for LAPOS2 and many functions for professional graphic design
