

Overview

With the C5 Clam, Secabo has the right transfer press for getting started with textile finishing and other transfer techniques. All common heat transfer processes (flock, flex, sublimation, etc.) can be carried out with the folding press. The desired settings can be made quickly and easily using the digital controller for temperature and time. The pressure is adjusted using a handy handwheel. The Secabo C5 Clam has a work surface of 38 cm x 38 cm. Inexpensive heat press for beginners Large work surface of 38 cm x 38 cm Digital controller for temperature and time Easily adjustable contact pressure
