

secabo
Modular
CROSSLASER
System

Overview

This modular product has the following content: 1 x Secabo Crosslaser Basic Unit 1 x Secabo Stand Basic Unit 1 x Secabo 500mm Rod 1 x Secabo Screws Bag for Transfer Extension Modules Do you actually know how easy it is to use the new Secabo Crosslaser? For example, the single cross laser table version. Connect the base piece to the desired rod, available in 500mm or 300mm, of course you can vary the height that is comfortable for you. Then clip on the laser diode and tighten it. To make sure nothing bothers you, you can secure everything with the included cable ties and you're ready to go! The nice thing about the Secabo cross laser system is that you can now reorder more rods if you need more height, or even an intermediate rod for a second laser. All products from the Secabo cross laser system can be expanded if desired and as needed. Secabo cross laser modular accessory system for transfer presses For even more flexibility and precision in hot transfer: a cross laser suitable for all Secabo transfer presses! The new modular cross lasers from Secabo offer you unprecedented convenience in textile finishing. The Secabo cross laser system can help you, for example, to optimally position the desired transfer objects and to achieve consistent results with higher print runs. With Secabo's flexible cross lasers, textiles and other objects as well as transfer elements such as flex foils, sublimation papers and the like can be positioned easily and reproducibly. Secabo has developed a modular system here that is suitable for almost all Secabo transfer presses. Whether you want to use the table version, stand version or in combination with our Accessory Holder the laser directly at the transfer press. Here your possibilities are extremely variable, because by the different bar lengths and cross bars you can adapt everything to your workplace accordingly.

The new laser can be focused even more precisely, which is particularly interesting for hot transfers in series production, as it makes it much easier to position the transfer objects exactly in almost all transfer press types. Like all Secabo products, these new products have been tested in accordance with current safety standards and come with a 24-month warranty. Features all transfer presses can be retrofitted with the cross laser system modular design for optimal workflow more precise positioning due to exact laser focus desk and floor standing version available Safety instructions! Do not look into the laser beam Do not look into the direct reflections of the laser beam Do not use at eye level.
